Scarecrow inserted into the farmland

Electronic component inserted into the farmland

Farmland as a grid

Breadboard as a grid

Paddy deity inhabits the site through placement

Electricity inhabits the site through placement

Farmland = Breadboard

Breadboard Farming: Treating farmland as a breadboard

Agriculture Punk: A movement toward the computerization of farmland

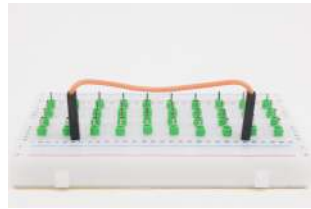

ELECTRONIC COMPONENT-THEMED TOOLS

LED

Capacitor

Jumper Wire

LED-themed Scarecrow

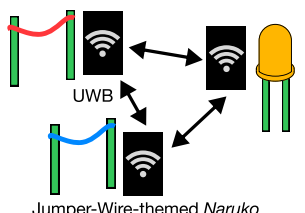

Capacitor-themed Scarecrow

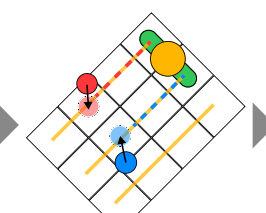

Jumper-Wire-themed Naruko

TECHNICAL IMPLEMENTATION

Tools in shared columns are treated as wired together — connections inferred from where they stand, not from physical current.

UWB

Map the positions onto a grid

Determine connectivity and execute actions

Jumper-Wire-themed Naruko

Measure mutual distances using UWB

Map the positions onto a grid

Determine connectivity and execute actions

CONCLUSION

Through component-themed tools and breadboard-style connections, Breadboard Farming redescribes agricultural ritual and situated knowledge in the vocabulary of electronics prototyping. The deployments showed that the placement of tools can simultaneously mediate situated knowledge, belief, and bodily ritual — functioning not as a mere installation but as an interaction enacted by hand on the field.

FUTURE WORK

With so few participants, effects cannot yet be isolated. We will improve positioning accuracy and add conditional branching (transistors) and flow limitation (resistors) toward a more dynamic, scalable practice.

FIELD IMPLEMENTATION

Tool placement made the farmer's water knowledge and local belief legible at once. At the festival, pulling the scarecrows sent the deities home and opened the circuit together. Six of ten participants felt the field afterward as "a living presence."

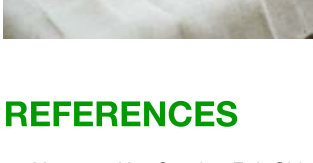

1. Ritual purification

2. The officiant bows once

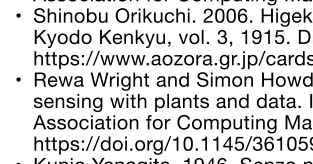

3. Opening of the sanctuary doors

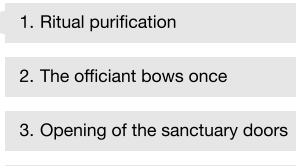

4. Offering of food to the deity

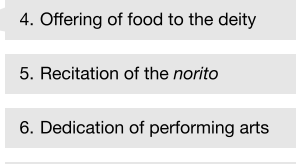

5. Recitation of the *norito*

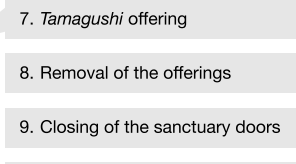

6. Dedication of performing arts

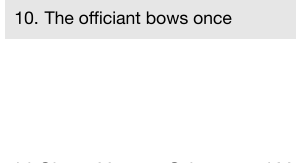

7. *Tamagushi* offering

8. Removal of the offerings

9. Closing of the sanctuary doors

10. The officiant bows once
